

ADVANCED INSTRUCTOR STANDARDS

ACUC - ADVANCED
INSTRUCTOR STANDARDS

ACUC

Points of special consideration

- *This is a leadership level certification*
- *It can be given by any ACUC ITE once requisites are met*

FOREWORD

The ACUC Advanced Instructor is a certification that can be obtained either by those ACUC Open Water Instructors that fulfil a series of prerequisites (see Point 10.5 Alternative Path) or through a course. This certification can only be offered by an ACUC Instructor Trainer Evaluator or by the President of ACUC. The main characteristics of this certification is that besides doing the same as an ACUC Open Water Instructor, the candidate that obtains this level, can also teach but not evaluate or certify, the ACUC Entry Level Instructor course.

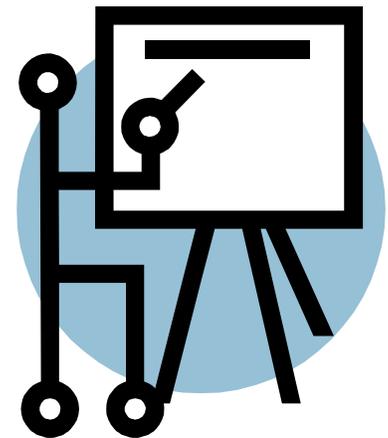

This is an ACUC International standard and therefore is always subject to the different national or local legislations. In cases where legislations exist that differ from this standard, the ACUC country or area delegation if it exist, must request in writing to ACUC HQ a “**Deviation**” from this standard to satisfy the legislation of the area, supporting their request with the appropriate documentation. Deviations, if requested, to be considered valid, must appear at the end of each specific standard document (Point 12)

In cases where the local or national legislations are more restrictive than the ACUC Standard, then the local legislation will prevail, but if the ACUC Standard is more restrictive, then the ACUC Standard will prevail, because by complying with the more restrictive ACUC Standard, logically the local legislation will be also complied with.

Regarding required training hours, none are specified because these could vary depending on many factors (number of students, diving environment, etc), therefore the training hours needed are dependant on the fulfilment of learning objectives. In the ACUC manuals and documents where hours are specified, these are only to be considered recommendations.

1. Scope

This Standard specifies safety related minimum competencies to be achieved in recreational scuba training at the ACUC Advanced Instructor level. This Standard applies only to contractual training and certification in recreational scuba diving.

2. Definitions

For the purposes of this standard and any other standard referenced as acuc-st-xxx, the following definitions apply. Please note that not all terms shown next might appear in this specific standard.

- 2.1 ACUC:** Entity providing recreational scuba diving training systems and certification.
- 2.2 basic equipment:** Equipment consisting of the following items:
- Mask
 - Fins
 - snorkel
- 2.3 breathing gas:** Appropriate mixture of oxygen and nitrogen.
- 2.4 certification:** Confirmation that a student has completed all requirements of a course according to this Standard, as issued by ACUC.
- 2.5 cold water:** Water less than 10°C from its highest average temperature or water of 10°C or less
- 2.6 competencies:** What a diver can do once certified
- 2.7 confined spaces:** condition that applies when there is no direct access to the surface, such inside a wreck, cave, etc.
- 2.8 confined water:** Swimming pool with a depth appropriate to the activity, or body of water that offers similar conditions (maximum depth 6 meters)
- 2.9 diving equipment:** Equipment consisting of the following items:
- mask,
 - fins,
 - snorkel,
 - cylinder,
 - regulator,
 - alternative breathing gas system, which could range from a simple octopus system to a duplicate breathing system with a separate breathing gas supply,
 - cylinder-support-system and buoyancy control device including (if appropriate) a quick release weight system,
 - submersible pressure gauge (breathing gas pressure monitor),
 - means to measure depth and time and to safely limit exposure to inert gas,
 - diving suit (if appropriate).
- Note: Specific environments may require appropriate additional equipment (e.g. an underwater navigational aid, knife/cutting device).
- 2.10 dry specialty:** Specialty course where no water training takes place, such as for example, First Aid, Oxygen Administration, etc
- 2.11 knowledge levels:**
- Basic: knows how...
 - Intermediate: knows how and why...
 - Advanced: knows how, why and also, knows how to teach it...
- 2.12 non certification scuba course:** Scuba course where the participants do not receive an ACUC certification at the end of the course, such as for example, scuba introduction, scuba refreshment, scuba buoyancy, etc
- 2.13 open water:** Body of water significantly larger than a swimming pool offering conditions typical of a natural body of water encountered in the region where training takes place.
- 2.14 prerequisites for training:** What a diver needs or conditions to be met prior to start training
- 2.15 reduced visibility:** condition that applies when diving at night or when visibility is less than an arm's length, for whatever the reason
- 2.16 scuba:** Self-contained under-water breathing apparatus.
- 2.17 scuba instructor:** A qualified individual, sanctioned by ACUC to teach, evaluate and certify divers.
- 2.18 theoretical knowledge:** knowledge imparted in a dry environment (classroom, pool deck, etc

ACUC - ADVANCED INSTRUCTOR STANDARDS

- 2.19 training open water dive:** open water training experience under direct supervision of a qualified instructor, comprising at least the following activities:
- Briefing
 - preparation to dive
 - pre-dive checks
 - entry into water
 - descent procedures
 - under-water activity
 - ascent and surfacing procedures
 - exit from water
 - Debriefing
 - post dive procedures
 - recording the dive.
- 2.20 water skills:** knowledge imparted inside a wet environment (pool water, sea water, etc)

3. Competencies of a certified, recreational ACUC Advanced Instructor

An ACUC Advanced Instructor shall be trained to have sufficient competencies by knowledge, skill and experience to, in addition of what an Open Water Instructor must know, teach but not evaluate or certify, the Entry Level Instructor program. ACUC Advanced Instructors shall dive within the following parameters

- dive and lead divers to a maximum depth of 40 meters / 130 feet
- dive and ensure that others dive only when appropriate support is available at the surface,
- dive and ensure that others dive under conditions that are equal or better than the conditions where they were trained.
- assist certified divers in new environments which the Advanced Instructor is familiar with.

If accompanied by an ACUC instructor of superior level, certified ACUC Advanced Instructors may gain progressive experience beyond these parameters (except depth) and develop competency in managing more challenging diving conditions designed to lead to higher qualifications. Where further instruction or experience is required this can only be provided by a suitably qualified ACUC instructor trainer.

4. Prerequisites for training

In order to qualify for enrolment in a course according to this Standard the student shall meet the following prerequisites:

- 4.1 Minimum age:** To start training: 19 years. (see also point 10, Assessment and Certification requirements)
- 4.2 Health requirements:** Students shall be medically screened as suitable for recreational diving by means of an appropriate medical examination. Students shall be advised of the importance of appropriate regular medical examinations.
- 4.3 Previous Certification:** ACUC Open Water Instructor or similar from other recognised organisations. Also must be an ACUC First Aid Instructor and O2 Administration Instructor (please note that ACUC is willing to homologate different First Aid and O2 courses from other recognised organisations although, in the case of the ACUC First Aid course, the ACUC First Aid exam must be passed and the ACUC First Aid kit must be obtained), If the candidate does not have these specialties s/he can do them during the course. For the purpose of this standard it is assumed that the candidate already has these Instructor specialties.

5. Instructor:Student Ratios during training

- **Theory (classroom or pool):** No limit
- **Confined Water:** 10 students per Instructor, with an additional 4 students per Divemaster or Assistant Instructor, with an absolute maximum of 20 students.
- **Open Water:** 8 students per Instructor, with an additional 2 students per Divemaster or Assistant Instructor, with an absolute maximum of 12 students.

6 Introductory information

The following information shall be made available to the students prior to, or during the first class meeting.

- prerequisites according to 4,
- limitations of eventual qualification,
- scope of course,
- course procedures,
- costs, insurance and contractual issues according to national regulations,
- equipment requirements,
- certification requirements according to 10,
- diving related legislation and legal requirements.

7. Course content relating to theoretical knowledge

Candidates must already have the knowledge of an Open Water Instructor, plus:

- 7.1 **Teaching Techniques:** Students shall have an advanced knowledge of teaching the Entry Level Instructor course

8. Course content relating to scuba skills

- 8.1 **Confined water scuba skills:** Besides the already acquired skills of an Open Water Instructor, students shall be able to perform the following skills. Each skill shall be mastered in confined water before that skill is performed in open water: Teaching the Entry Level Instructor course
- 8.2 **Open water scuba skills:** Besides the already acquired skills of an Open Water Instructor, students shall be able to perform the following skills in conditions typical of the local environment: Teaching the Entry Level Instructor course

9. Practical training parameters

- 9.1 All skills shall be introduced, directly supervised and evaluated by an ACUC Instructor Trainer, who shall be in the water during each session. The Instructor Trainer shall be in direct control of students throughout all sessions.
- 9.2 When open water dives are involved, before participating in open water dives a student shall have demonstrated sufficient theoretical knowledge and scuba skills in confined water to be able to perform the open water dives in the prevailing conditions.
- 9.3 The maximum depth during training dives shall not exceed 25 meters / 80 feet
- 9.4 All training open water dives shall be conducted during daylight hours in water that allows direct vertical access to the surface. Open water dives therefore shall not be conducted in underwater caves or below ice.

ACUC - ADVANCED INSTRUCTOR STANDARDS

- 9.5 During open water dives the student shall at least be equipped with diving equipment according to 2.9.
- 9.6 As per clause 5, the absolute maximum number of students per scuba instructor in ideal conditions for supervision and escorting under water is eight. The maximum number of students per qualified assistant for supervision and escorting under water is two. At no time shall a student in or under water be left without supervision.
- 9.7 Prior to open water dives the scuba instructor shall prepare an “emergency plan”. In the immediate vicinity of the dive site there shall be:
- a suitable first aid kit
 - an emergency oxygen unit with a capacity of delivering at least 15 l/min. for at least 20 min.
 - communication system suitable for alerting emergency services.
- 9.8 The scuba instructor shall cancel or abort the open water dive if environmental conditions or a student’s physical or mental condition make this necessary.
- 9.9 A maximum of 3 daily training dives will be allowed

10. Assessment and certification requirements

- 10.1 **Knowledge:** The student shall demonstrate, by means of the written test (**) supplied by ACUC, knowledge of scuba diving theory according to 7 and knowledge of skills according to 8.
- 10.2 **Teaching Techniques:** The student shall demonstrate, by means of at least 2 classroom presentations, knowledge of teaching techniques according to 7 and 8.
- 10.3 **Scuba Skills:** The student shall satisfactorily demonstrate to an ACUC instructor, the scuba skills according to 8.
- 10.4 **Minimum Age:** To Obtain the certification: 20 years.

(**) If for some reason, the student can not do a written test, then the Instructor can do an oral examination to the student based on the written test provided by ACUC and if this is the case, the Instructor will transfer the student’s oral answers to the written test. Whatever the case, the written test must be completed, either directly by the student or indirectly by the Instructor, using the student’s oral answers. Instructors can, if they wish, offer additional tests to the student, however, the ACUC provided test must be done.

- 10.5 **Alternative Path:** As an alternative to the course path, Open Water Instructors can also participate as an observer in at least two ACUC Entry Level Instructor or Open Water Instructor courses. Once the candidate has participated as an observer in at least two Instructor courses then the Open Water Instructor candidate will obtain the Advanced Instructor rating. The candidate must also have the Instructor specialties mentioned in Point 4.3

11. Training Dives

No additional training dives, except those in which the student participates as an Advanced Instructor-in-training, are required for this level.

12. Deviations

Deviations only apply to the country or area mentioned (next page)

ACUC - ADVANCED INSTRUCTOR STANDARDS

Country or Area	Deviation relating to	Reason	Deviation Approval
Canada and U.S.A.	First Aid and Oxygen Administration certification level required	High market saturation of First Aid and Oxygen Instructors	For ACUC Advanced Instructors, it is not mandatory, although it is highly recommended, to be First Aid Instructors or Oxygen Providing Instructors. They should be nevertheless, First Aid Providers and Oxygen Providers from any recognized agencies.
South Korea	Oxygen Administration certification	Local legislation	Because a medical degree is required for oxygen administration, this course is not mandatory
